My Future Career

Imagine the Possibilities

When I hear the words *My Future Career Imagine the Possibilities*,

I just think about what I can be.

I can be a lawyer, I could be a business man, I can do anything I want to be, because it is my future and it is up to me.

For my future career I want to be a basketball player, and be a business man, I want to have a clothing store in every continent, and every land.

I want to be something special in life, I want everybody to come to my games and to wear my clothes, I definitely want to hang out and have fun with my family and my bro's.

My Future Career makes perfect sense, but if I want to achieve my goals it takes hard work and diligence.
